Saint Augustine’s University is a valuable economic engine in its community, generating substantial economic returns year after year. The benefits flow to Saint Augustine’s University’s graduates, of course, who’ll enter the workforce with sharper skills and vastly enhanced earning prospects. But, as a landmark study commissioned by UNCF—HBCUs Make America Strong: The Positive Economic Impact of Historically Black Colleges and Universities—makes clear, the benefits also flow to the local and regional economies that are connected to Saint Augustine’s University.

The presence of an HBCU means a boost to economic activity, on and off—and even well beyond—campus. Stronger growth. Stronger communities. More jobs. And a more talented workforce.

The study’s key findings (based on 2014 data) make a persuasive case:

**Total Economic Impact: $72 Million**
- Saint Augustine’s University generates $72 million in total economic impact for its local and regional economies. This estimate includes direct spending by Saint Augustine’s University on faculty, employees, academic programs and operations—and by students attending the institution, as well as the follow-on effects of that spending.
- Every dollar spent by Saint Augustine’s University and its students produces positive economic benefits, generating $1.41 in initial and subsequent spending for its local and regional economies. Communities and regions hoping to foster a more robust and diversified economic climate find HBCU-connected spending a critical component of that effort.

**Total Employment Impact: 684 Jobs**
- Saint Augustine’s University generates 684 jobs for its local and regional economies. Of this total, 301 are on-campus jobs, and 383 are off-campus jobs.
- For each job created on campus, another 1.3 public- and private-sector jobs are created off campus because of Saint Augustine’s University-related spending.
- Looked at in a different way: Each $1 million initially spent by Saint Augustine’s University and its students creates 13 jobs.

**Total Lifetime Earnings for Graduates: $574 Million**
- Saint Augustine’s University plays a major role in the economic success of its graduates by enhancing their education, training and leadership skills. A college degree opens the door to economic prosperity through greater employment and earnings potential. In fact, the 226 Saint Augustine’s University graduates in 2014 can expect total earnings of $574 million over their lifetimes—that’s 77 percent more than they could expect to earn without their college credentials.
- Or viewed on an individual basis, a Saint Augustine’s University graduate working full time throughout his or her working life can expect to earn $1.1 million in additional income due to a college credential.\(^1\)

\(^1\) This estimate reflects incremental earnings averaged across degree and certificate programs.
